15:10 Rethinking medicalization in the context of bioethics
Tatsuya Mima, Ritsumeikan University

Session 8. Concluding Discussion

15:55 Discussion on the Future of Bioethics
Chair: Roger Crisp, University of Oxford

16:30 Conference Closing
Joel Rosenthal, Carnegie Council for Ethics in International Affairs

16:45 Departure

OPTIONAL EVENING LECTURE

Delegates may be interested in attending the University of Oxford's Locke Lectures, given this year by Distinguished Research Fellow of the Oxford Uehiro Centre for Practical Ethics, and former Uehiro Lecturer, Professor Philip Pettit:

17:00 Professor Philip Pettit (Princeton and ANU)

Minds That Speak

Maths Institute, Radcliffe Observatory Quarter, Woodstock Road, OX2 6GG

The theme of the lectures is the constitutive dependence of our characteristic mental capacities on the ability to speak and the social life it makes possible. The claim defended is that speaking ensures that minded subjects have these capacities. The method followed is to explore, counterfactually, how the advent of even a simple, information-sharing language would elicit the capacities in subjects otherwise like us.

Philip Pettit is L.S. Rockefeller University Professor of Politics and Human Values at Princeton University and Distinguished University Professor of Philosophy at the Australian National University, Canberra

EVENING EVENTS

18:30 Drinks Reception, Saugman Common Room, St Cross College

At the sound of the gong:

A Tribute to Mr. Eiji Uehiro

Dr Noboru Maruyama, Uehiro Foundation on Ethics and Education

19:00 Conference Dinner, Hall, St Cross College
